EDUCATION

Pandit Deendayal Energy University

Bachelor of Technology in Information & Communication Technology; CGPA: 9.06/10.0

Gandhinagar, India

Oct 2022 – May 2026

Aspire Public School

12th GSHSEB: 98.56 PR — 10th GSHSEB: 99.03 PR

Surat, India

2019 – 2022

EXPERIENCE

Software Development Intern | DRC India

Jan 2026 – Present

- Developed AI-powered software solutions for diamond and jewelry inspection using Python, OpenCV, and Computer Vision techniques
- Built automated diamond detection and boundary segmentation systems to improve diamond counting speed and jewelry analysis accuracy
- Implemented deep learning and image-processing pipelines for real/fake diamond identification and automated quality inspection
- Optimized real-time industrial workflows using multithreading, ROI optimization, and efficient image-processing algorithms in collaboration with the R&D team

Software Development Engineer Intern | Unlock Discounts

May 2025 – Aug 2025

- Developed user-facing features for e-commerce platform using React.js with RESTful API integration for authentication, product listings, and discount services
- Optimized UI/UX with responsive layouts and comprehensive testing, achieving 30% reduction in post-deployment bugs
- Participated in Agile sprints, daily standups, and code reviews to ensure faster delivery and maintain high code quality standards

PROJECTS

Job Portal Application | *Spring Boot, Thymeleaf, MySQL, Spring Security, Microservices* | [Link](#)

2024

- Built full-stack job portal with Spring Boot backend and React.js frontend, implementing secure authentication and role-based access control using Spring Security
- Reduced recruiter manual work by 40% through automation features including CRUD APIs with Spring JPA for efficient database operations
- Architected microservices-based system ensuring scalability, distributed deployment, and fault tolerance

Bitcoin Price Prediction Tool | *TensorFlow, Keras, LSTM, GRU, CNN, Python* | [Link](#)

2024

- Developed a Bitcoin price prediction system using LSTM neural networks with data preprocessing, normalization, and evaluation metrics (RMSE/MAE)
- Improved forecasting accuracy by 12% over baseline models through hyperparameter tuning and optimization
- Visualized market trends using Matplotlib and maintained version control with Git, demonstrating ownership of the end-to-end ML pipeline

Business Management Web Application | *Spring Boot, Java, MySQL, Thymeleaf, Spring Security* | [Link](#)

2023

- Built a full-stack business management system handling customer, inventory, and order workflows using Spring Boot and MVC architecture
- Implemented secure authentication and role-based access control with Spring Security, ensuring protected and structured access for Admin/User roles
- Developed dynamic Thymeleaf-based UI and integrated MySQL with Hibernate/JPA for efficient data persistence and automated schema management

TECHNICAL SKILLS

Languages: Java, C++, Python, SQL, HTML/CSS, Embedded C

Frameworks & Libraries: Spring Boot, Hibernate, Spring Security, Spring JPA, RESTful APIs, TensorFlow

Tools & Technologies: Git, Docker, AWS, MySQL, Postman, Linux, IntelliJ IDEA, VS Code, GitHub

Core Concepts: Data Structures & Algorithms, System Design, Operating Systems, DBMS, Computer Networks, Microservices Architecture, Distributed Systems, Software Development Life Cycle, OOP, CI/CD, Agile Methodology, Big Data (Hadoop, HDFS, Hive, Spark, HBase)

Machine Learning: Deep Learning, LSTM, GRU, CNN, Model Training & Evaluation, Data Preprocessing

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming: Solved 400+ problems across platforms (LeetCode: 230+, HackerRank: 100+, CodeChef: Rating 1403)

Academic Excellence: JEE Main 2022: 95.96 Percentile, ACPC Rank: 430

Certifications: Spring Boot 3 & Hibernate (Udemy), Deep Learning Essentials (PDEU), Prompt Design in Vertex AI (Google Cloud), Understanding Incubation & Entrepreneurship (NPTEL), Java Basics (HackerRank), Python for Data Science (NPTEL)
